## TECHNICAL SKILLS

- Proficient:** JavaScript, React, Ruby on Rails, TypeScript, GraphQL, PostgreSQL, Cypress, Jest, RSpec, jQuery, HTML5, CSS3, Git; **Exposure:** Node.js, Python, Flask, SQL, Algolia, Hasura, Sorbet, PHP, Java, Redux

## EXPERIENCE

### [Atrium](#) | Software Engineer | San Francisco, CA 2017 - 2020

- Early engineer (grew to 30+ engineers) delivering full-stack products that streamlined and automated legal work for legal team + clients, using React, Ruby on Rails, TypeScript, GraphQL, PostgreSQL, Cypress, Jest.
- Merged 600+ pull requests, building tools including document & project management systems, document generation, search, Office plugin, billing, hiring, and legal deals management.
- Served as an integral part of multiple agile teams (e.g., scrum master), delivering high-quality, tested products within tight deadlines & across company pivots.
- Led the 10+ member Front-End Working Group (6+ months), improving developer productivity and practices.
- Formed and ran a bi-weekly Engineering Book Club (2+ years), leveling-up teammates' skills and knowledge.
- Spearheaded D&I efforts (e.g., created/led Women of Engineering, Product, and Design group over 8+ months).

### [Course Report](#) | Software Engineer | San Francisco, CA 2017

- Refactored Ruby on Rails codebase, serving as online ed. resource for coding students (>300,000 views/month)

### [Tunelark](#) | Software Engineer | San Francisco, CA 2017

- Built educational guitar music game using JavaScript, ReactJS, and Redux, optimizing codebase by over 3X.

### [GLTF Tennis League](#) | Software Engineer | San Francisco, CA 2017

- Devised membership verification web tool for 500+ member tennis non-profit using jQuery + Wild Apricot API.

### [Waves Design Studio](#) | Software Engineer + Founder | San Francisco, CA 2016 - 2017

- Designed custom WordPress child theme and generated interactive portfolio showcasing 12+ client projects.
- Migrated 3 client web platforms to Squarespace CMS and provided client training to use new system.

### [Rockman et al](#) | Project Manager | San Francisco, CA 2010 - 2015

- Managed over 20 research and evaluation edtech projects with budgets up to \$150,000+ for major educational institutions across U.S. (e.g., Cal Academy of Sciences, UC Berkeley, University of Kansas, Yale, Youth Radio).
- Analyzed 100+ quantitative and qualitative datasets using SPSS, Qualtrics, and Excel, and collected data from over 1,000 participants, conducting usability testing, focus groups, interviews, surveys, and observing.

### [Rockman et al](#) | Research Associate | San Francisco, CA 2005 - 2009

- Oversaw development, launch, maintenance, and enhancements for company Intranet and external website using JavaScript, PHP, SQL, and HTML, saving company \$5000+ within the 1st 6 mos.

## VOLUNTEER + CONFERENCES
